Reference Technical Topics For Poster Presentation

The Posters that are to be presented in **INNOVAZIA** should be based on some technical idea. The idea should present sustainable development using digital intervention. Few suggested topics of poster presentation are as follows:

1. Blockchain
2. Cloud Computing
3. Cyber Security
4. Internet Of Things (IOT)
5. Software Engineering
6. Nano Technology

Other than that any other sustainable technical idea can also be presented.
